

**ROBOGUARD**

# REAL TIME RESPONSE!

**Roboguard technology is a unique locally developed product solution that provides secure end to end proactive Video Monitoring Solutions.**

Only Roboguard will detect and interact (2 way audio) with a potential offender BEFORE any opportunity to cause damage or loss. Roboguard facilitates an immediate response as the real-time situation is video verified in our Grade A1 Monitoring Station. Better still, Roboguard does not rely on expensive infrastructure upgrades or installations.

## Suitable Applications:

- Public areas
- Playgrounds
- Illegal Dumping Sites
- Council Depots (securing outside plant and equipment)
- Graffiti Cameras
- Security Guard replacement.
- Portable, rapid deployment systems available.
